KANANGA OF JAPAN A NEW TOILET WATER. Our extensive relations have allowed us to thoroughly investigate the value of these exotic flowers, and this has led to our introducing the

delicious perfame distilled from the Kananga of Japan, of which we slone are the original importers, and from which we prepare Kanauga Water, a fine Extrict for the handkerchief, and a variety of preparations for the toilet. KANANSA WATER is a delightfully agreeable toilet fluid possessing the most refreshing pro-Added in small quantities to the water used for washing, it invigorates and whitens the skin

at the same time randering it not only noft but firm and velvety while imparting the sweet fragrance of the Kananga flower and a most pharming sonsation of bomfort and freshness. A bath taken after a hot dasty day, or exposure to the sun and the fatigue of perspiration, becomes a real luxury by the addition of a little Kananga Water, whose hypienic properties and soothing action on the skin cannot be overrated to remove redness or efflorestence of

It may be used in the same way as a tonic to the delicate parts of the body and for the toilette in ime of ladies, and for gentlemen to remove the irritation caused by shaving. Kananga Water relieves mosquito bites and its daily use prevents and removes freekles and pimples on the face, neck, and arms. Per bottle cents 50 per dozen \$5.50

HONGKONG, OCTOBER 3RD, 1890

THE decline in the export of tea from China to Great Britain has been partially counterbalanced by an increase in the export to Russia, a circumstance from which the apologists for China's suicidal policy in regard to her principal article of trade have derived more consolation than is fairly warranted. It is only a question of time how soon China tea will be relegated to the same relative position in the Russian market that it occupies in the English market. Russian buyers will find out sooner or later that they can get tea of equal quality at much cheaper prices. Ceylon planters are taking active steps to bring this fact prominently before the subjects of the Czar, and when they have succeeded Russian tea drinkers will not be slow to take advantage of it. At R. Fraser Smith present the Ceylon Planters' Association has Capt. Digby Barker a Commissioner in Russia, and an interest. Frank Lammert ing letter from him giving particulars re- G. E. But, granting there were many 1.10 like him amongst his countrymen, what possible chance can China tea have so long as the Government continue to handicap it with heavy export duties whilst its competitors can be exported free or, as in the case of Japan, on payment of a very mild duty The total extinction of the China tea trade is merely a question of time if the Peking Government continues to pursue its present policy. The decline in the total export of tea from China this season up to date is about twelve million pounds. Ceylon, on the other hand, has gained about nine million pounds; India, we believe, will show a still larger increase; and in Japan also there has been a forward movement. Under the Ordinance a person keeping such agency was liable to a term of imprisonment not excoeding six months, and the person acting as mas ter or appearing to act as such was deemed to be concerned in the agency and was liable to be punished accordingly. He would produce evidence to show that the defendants h d an office on the second floor of No. 214, Queen's Road Central or rather of Nos. 214, 216, 218, the three floors being knocked into one. The witness whom he should call would state that on the 9th September he went to this office to purchas eight lottery tickets. He was told to call again in two days, and on doing so received

the eight tickets from the defendants and the books which were the key to the tickets. This witness was accompanied by a I hinese constable who would also be called. After hearing the evidence he thought his Worship would have Kitle difficulty in coming to the conclusion that the charge was proved. Ho Nam, a shopman, said that on the 10th September he went to No. 214. Queen's Road Central, to purchase Wei-sing lottery tickets. A Chinese constable went with him, and on ar-

riving there he saw the two defendants. There were a number of people there and the defencharacters to be staked on and also gave him \$8. Defendants told him to call again an they were too busy to attend to him them. He called again on the 12th September and gof the eight tickets and the books produced.

Cross-examined the wituess said he was sen to the place by the Police. He had never acted as informer before. The characters to be staked on were contained in eight different envelopes. The envelopes were not addressed to a shop in anton. Each of the eight tickets had a name of a shop in Cauton stamped on it, but that was merely a blind. The constable gave him the envelopes containing the sight characters to

Mr. Francis said it might save trouble if stated that they admitted the greater portion of the evidence. The question they raised was that though no doubt the defendants kept a place here at which this money was received and tickets were received, this office was simply like a post office, the tickets, &c., being forwarded to Canton and received here from Canton. The efendants did not hake any money themselves The question in point of law was whether such transactions came within the meaning of dealing as laid down in the Ordinance.

> A remarkable case has been occupying the attention of the Toronto courts and public. Annie Pope, a married woman, is charged by her neighbours with being a common soold. Several of them came forward in the police court and deposed to her long records of vituperative oratory. The charge made reads thus :- "For being a common and turbulent brawler and sower of discord among her quiet and honest neighbours so that she has become a public nuimnoe to her neighbourhood by her scolding, quarrelling, inciting strifes, controversies, quarrels, and disputes among her Majesty's liege people. against the peace of Our Lady the Queen, her erown and dignity, to the common nuisance of divers of her Majesty's liege subjects." The magistrate was placed in a quandary. The punishment provided by the statute is the ducking stool. The punishment was pressed by the presecution. The magistrate thought twice about imposing so antiquated a sentence, and finally sent the case to the higher court.

TERATY BIGHTS IN FORMOSA

In another column we reprint an interest ing lotter from South Formosa, which discloses a lumentable state of things in that mland. The brave warrior LIU MING-OHUAN, a man we believe of excellent intentions, has appelessly broken down as an administrator, and since the island was elevated from a dependency of Fuhkien into an independent province things have rapidly gone from bad to worse. As it is tersely expressed by our Shanghai morning contemporary, have arsonals, railways, roads, steamers, a postal service, and he found plenty of advisers to show him how to spend his money while it lasted." The money is now all gone, and to raise the wherewithal to carry the part of their rulers takes place. That time might perhaps, be hastened by their own efforts, for the populace in China are able to bring considerable pressure to bear on the officals, especially when those officials bave empty exchequers. But it is not only the natives who suffer; the privileges hitherto enjoyed by foreigners are threatened. A monopoly of campbor has been established, thereby crippling the trade in that article. As such a monopoly is directly contrary to the treaties the foreign representatives at justify the officials in Formosa in of her northern provinces. their high-handed action. On all these

In Japan, or its neighbourhood, nothing like it has ever taken place before : the loss of life is without parallel. The nearest approach we have to it is the loss of another man-of-war, the U.S. corvette Oncida, which was run into and sunk in the Gulf of Yedo or Tokyo by the P. & O steamer Rombay on the night of the 24th January, it appeared to be at the time, sinks into insignifloance by the side of the Ertograf's 567. To find any parallel for such loss of life, we must go back to the loss of the Royal George in 1787 when fill souls prished, to the loss of the Australian liner Great Queensland in 1876 Princese Alice disester in the Thomas in 1878 when between 600 and 700 persons perished

THE FLOODS IN WESTERN SHANTUNG.

It is already apparent that one of the cidental results of the present year of is to be the reconsideration of the whole subject of foreign relief to the Chinese, in time of goneral calamity. It is easy to by down general principles, which shall be theoretical rules, but when the distress comes, it often becomes evident to the most sanguine that there is no possible opportunity for the application of such principles. bere are many public works which are required every part of Chins. How simple, then, get those who need relief at work upon the public onterprises which vitally need prosecui tion. But in China it is seldom the case that the simplest way is the best way, for the reason that it is often a wholly impracticable way. A case in point may be recalled from the entertaining, thou-be now almost forgotten, volumes in which Dr. Rennie. During the winter of 1860-61 the troops way to flush and thus purify it, the commander determined to cover it up with earth, sgainst generally knows what he is about; and if not he ignorant outsiders, supecially if they belong to an 'inferior race,' which has just been conquered Accordingly the covering of the ditch was carried out, and no trouble was experienced until the early spring, when there began to be ominous signs of a tremendons fermentation going on below, with liability to an outbreak much more detrimental to the health of the troops than the original open ditch. The commander was at a loss what to do, for to uncover it again, was to reduce the ditch to the exact state in which found it. The merchants, however, came forward and in order to persuade the military man to yield, obserfully offered to clean out the trench at their own expense. As there was plainly nothing else to he done, this was permitted, an the result was an ansavoury ditch comparatively empty instead of a full one. The lesson which Dr. Rennie drew from this incident was the undesirability of interfering on a large scale with the sanitary (or insanitary) conditions of Oriental cities, unless we are sure of our ground and et power to carry through a scheme which is once undertaken. Fureigners in China see so much which requires remedy, and perceive at the same time that those who ought to be most interested in the righting of what is wrong care nothing whatever about the matter, so long sa it does not affect them-foreigners seeing this on every hand and all the time, oan scarcely refrain from taking an oar themselves, especially when as so often they are invited to (or eneroe into) a benevolent subscription for the benefit of the Chinese people. The feeling of foreigners on this point is well illustrated by a correspondent of the News a short time since, who was
